## Summary

A Civil Engineer with six (6) years of professional experience at Construction Industry has given me ability, knowledge, and experience that will help me to become a better person in creating value for myself even for others and company. Currently, I worked as Senior Quantity Surveyor (including one (1) year as Trainee Quantity Surveyor Programme) at PT. Reynolds Partnership. My high achievement during the work when I contributed in various project such as Ayana Hotel Bali, West Vista Apartment Jakarta, Margo City Mall Depok, U-Residence Tangerang, One Galaxy Mall Surabaya, Launching Girder for Pluit Bridge and Slip Form Method for Cement Plant Semeru.

Focus on commercial aspect in Construction Industry. Specialization in Structure, Construction Management, Design Review, Project Control, Procurement, Budgets, Value Engineering, Contract Document and Contract Negotiation. Although, Engineering is definitely my expertise area, I also pursue to develop my interpersonal skills as good communication with the clients, main contractor, sub contractor, supplier and also stakeholder to solve any problem during the project implementation.

## **Experience**

---

**May 2015 – Until Now**
